

consegna S5-L1

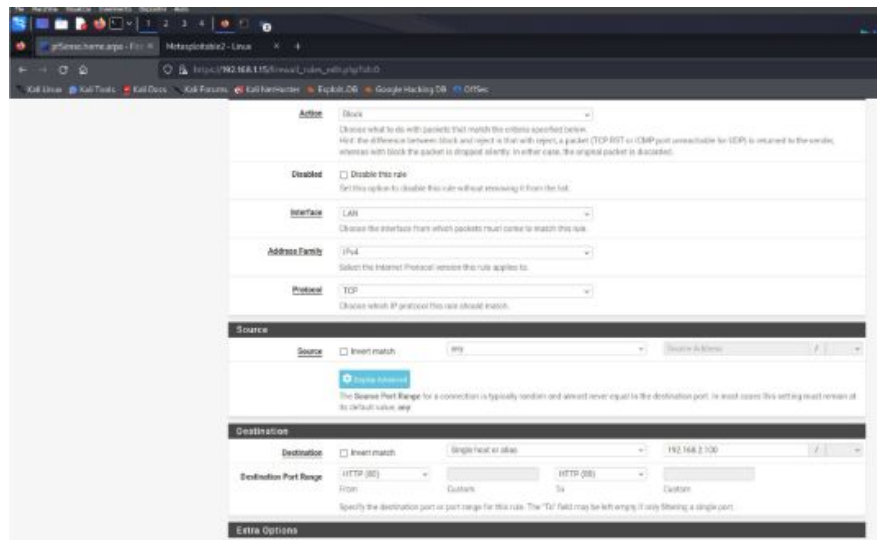

nell'esercizio di oggi ci e' stato richiesto di creare una regola firewall per bloccare il traffico da kali meta in modo da evitare scansioni sulla piattaforma DWVA

The connection has timed out

The server at 192.168.50.101 is taking too long to respond.

- The site could be temporarily unavailable or too busy. Try again in a few moments.
- If you are unable to load any pages, check your computer's network connection.
- If your computer or network is protected by a firewall or proxy, make sure that Firefox is permitted to access the web.

Try Again

Username

Password

Login

Damn Vulnerable Web Application (DVWA) is a RandomStorm OpenSource project

Hint: default username is 'admin' with password 'password'

possiamo veder che il sito funziona prima di creare la regola mentre non si collega piu' una volta abilitata la regol firewall
